RELCOM

Relcom price list

Prices and plan contents of all Relcom products.

Version 1.0 · Updated November 21, 2026
https://relcom.app/legal/pricelist/2026-11-21

The price list is part of the Relcom Terms. Prices are in euros per month and include VAT.

Relcom Resources · website hosting

Plan	Price	What is included
Free	0	1 static site, 100 MiB of files, 30 builds and 10 GiB of traffic per month
Starter	€15	A Node.js or Python application on a separate virtual machine: 2 GB of memory, 30 GB of disk. PostgreSQL, custom domain and HTTPS, daily backups, scheduled jobs
Standard	€29	The same, 4 GB of memory, 60 GB of disk
Pro	€59	The same, 8 GB of memory, 120 GB of disk

Memory and disk are the total allowance of the plan. Each site gets its own virtual machine, and its size is deducted from this allowance: 2 GB / 30 GB, 4 GB / 40 GB or 8 GB / 80 GB. A plan does not fix the number of sites: for example, Standard fits two sites of 2 GB each, and Pro fits four. One paid plan per account. Static sites also work on paid plans. A free site that has had neither visits nor new publications for 60 days is paused; we send an email 7 days before. Build checks before publication: on Free, 10 a day, up to 300 seconds each; on Starter, 300 minutes a month, on Standard 600, on Pro 1,500.

App trial: 7 days, €0. Once per account and per payment card. Terms are in the Resources annex.

Relcom ID · sign-in for your site

Plan	Price	What is included
Free	0	All features

There are no paid plans.

Relcom Press · a blog on your domain

Plan	Price per month	Price per year	What is included
Free	0	—	1 blog, 1 language, 2 members, an address on the Relcom domain, the "Relcom Press" badge on pages
Starter	€19	€190	1 blog, 2 languages, 1 custom domain, 5 members

Pro	€49	€490	3 blogs, 6 languages and 3 custom domains per blog, 15 members, no "Relcom Press" badge
Agency	€149	€1490	25 blogs, 6 languages and 5 custom domains per blog, 50 members, no "Relcom Press" badge

The number of members includes unanswered invitations. The plans set no limits on the number of articles or the volume of images. Automatic article preparation runs on your Anthropic or OpenAI key and is paid for by you directly to those companies.

Relcom Support · chat with visitors

The plan limits the number of projects. One project can have several website addresses. Operators are counted across all of the owner's projects together, including the owner and invitations not yet accepted.

Plan	Price	What is included
Free	0	1 project, 2 operators
Start	€32	3 projects, 4 operators, help centre editing, your own logo
Team	€69	10 projects, 10 operators, everything in Start, API keys and webhooks
Business	€209	Unlimited projects, 20 operators. Each additional operator €7 per month

Relcom Verify · age and identity verification

Pilot. Price and terms are set by a separate agreement.

Managed service

Launch and ongoing management of a project by Relcom engineers. The setup price and the monthly fee are determined by an assessment of the project and fixed in a separate agreement.

General rules

- Payment is in advance; the charge is made on the day of purchase and then every month on the same date.
- Annual payment is available only where it is shown in the table.
- At present each product is paid for separately, in the product itself. When unified billing appears on the portal, all products will be paid for in a single payment, and each paid product from the second onwards will cost 15% less. Until then there is no discount.
- The price for the buyer is the same in all countries. It includes value added tax. For private individuals in the EU the tax is calculated at the rate of the buyer's country. Companies from other EU countries with a valid VAT number pay under the reverse charge rule. For buyers outside the EU the tax is determined by the rules of their country.
- We give 30 days' notice of a price increase. Details are in section 8 of the Terms.
